

Guidelines for your poster

- Use font size of 24pt or greater
- Bring your poster to life by using plenty of graphics, photos, diagrams
- The sub-headings in each box are suggestions; you can merge, eliminate, or add subheadings
- You may resize the template boxes or any sub-section
- Use high-resolution images (300 dpi); enlarging low-resolution images from a webpage will make them look blurry when printed out at poster size (55" wide x 38" tall)
- Resize, add, or delete the content boxes to fit your story
- Submit your poster by Sept. 25, at <https://www.posterpresentations.com/tracelink-poster-printing.html>
- Questions? Contact Allan Bowyer at abowyer@tracelink.com
